BRIEF OVERVIEW OF THE BITBANKCOIN_LOAN CEX ECOSYSTEM

BitBankCoin (\$BBC) is a revolutionary cryptocurrency, redefining financial market possibilities by offering bank loans without any requirements. The LoanCEX ecosystem is positioned as an innovative solution, allowing investors to access traditional loans using their BitBankCoin cryptocurrency as collateral on the LoanCEX platform.

The concept is based on using LoanCEX's native cryptocurrency, BitBankCoin, as a powerful asset, providing a reliable and transparent alternative for investors looking to maximize their returns while minimizing risks.

BitBankCoin, at the heart of this initiative, promises to play a central role in transforming the financial landscape, providing a pragmatic path to providing loans to stakeholders, i.e. investors who choose to stake their coins BitBankCoins on the LoanCEX platform.

As LoanCEX and BitBankCoin establish themselves as key entities in the cryptocurrency market, this initiative ingeniously merges blockchain technology with traditional financial mechanisms, opening new avenues for those looking to fully benefit from the exponential growth of the sector while minimizing the uncertainties linked to volatility. The financial future is bright with BitBankCoin and LoanCEX at the forefront of crypto-financial evolution.

ELIGIBILITY CRITERIA

Any person of good moral character, regardless of nationality, who has legally accumulated BitBankCoin tokens for the sole purpose of financial self-sufficiency, is eligible to participate in the staking program. The BitBankCoin cryptocurrency cannot be used to finance terrorist activities or its corollaries.

1. Eligibility Criteria and Terms for Traditional BitBankCoin Token Staking

Any investor who meets the above-mentioned conditions may participate in the BitBankCoin staking program. The minimum number of coins to be staked is 50,000 \$BBC. The deadlines and interest rates are as follows:
