

ACT 01 • VISION

LoanSwap

VISION • UTILITY • COMMUNITY

An ecosystem designed around \$LOAN, community participation, and a path toward staking and lending services.

THREE VISION PILLARS

T

Transparency

A clear trajectory with technical data presented openly.

U

Progressive utility

An evolution toward planned post-listing functionality.

C

Community

A progressive build supported by ecosystem participation.

THE STORY

One ecosystem. Five acts. A defined trajectory.

From vision to presale, token architecture, staking and lending, and finally listing — each stage builds on the previous one.

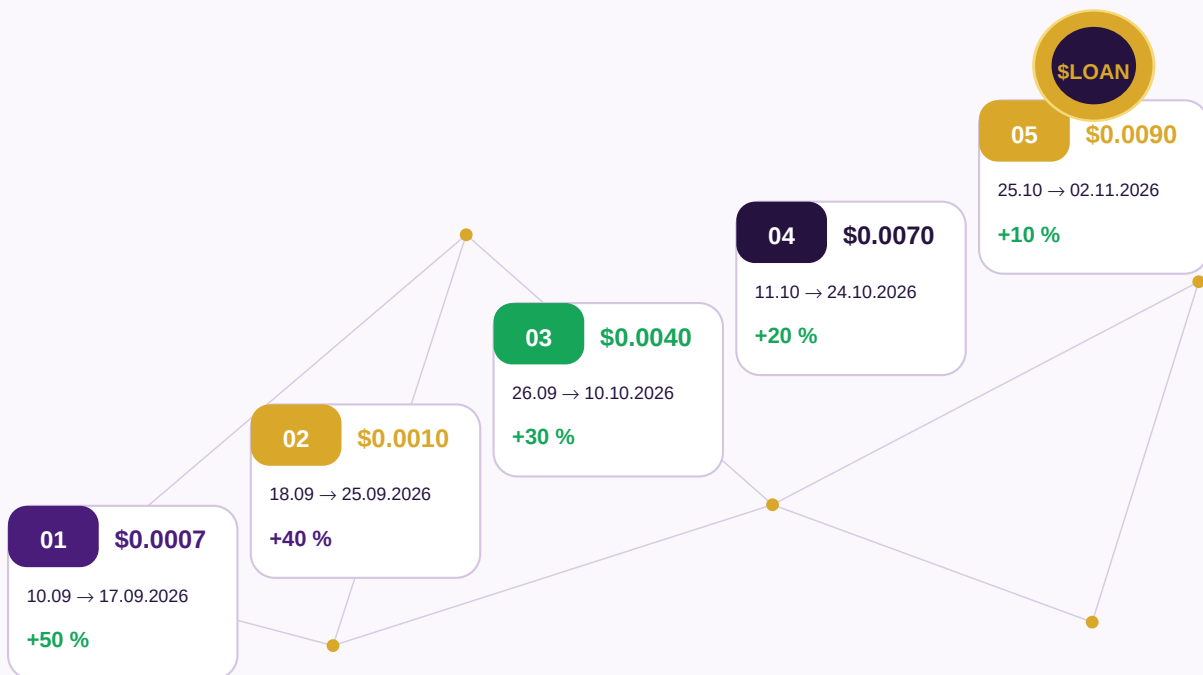

VISION → PRESALE → TOKEN ARCHITECTURE → STAKING & LENDING → LISTING

ACT 02 • PRESALE

Five phases, one structured progression.

A structured progression ahead of the November 3, 2026 listing. The \$LOAN coin moves upward step by step as the presale advances.

LISTING

November 3, 2026**Announced price: \$0.01**

THE PRESALE

The presale constitutes the first stage of community building and prepares access to the ecosystem's planned next-stage functionality.

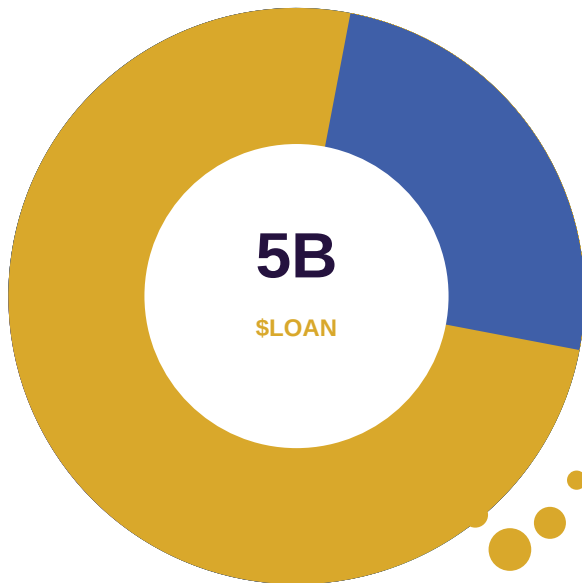

PRESALE → LISTING**THE COIN RISES. UTILITY FOLLOWS.**

ACT 03 • TOKENOMICS

A clear architecture built around 5B \$LOAN.

Total supply: 5B • BNB Chain • Decimals: 18

**40%****PRESALE**

Allocation designated for the presale.

20%**MARKETING**

10% Press + 10% Referral.

10%**TEAM**

10-year vesting; annual unlocks at a rate of 10%.

2%**AIRDROP**

Allocation dedicated to airdrop operations and the community.

28%**REMAINING TOKENS BURNED**

All remaining tokens after the presale are automatically burned.

AUTOMATIC BURN**TEAM VESTING****10 YEARS**

Annual unlocks at a rate of 10%. The vesting schedule extends across 10 years.

Name	LoanSwap	Blockchain	BNB Chain
Symbol	\$LOAN	Decimals	18

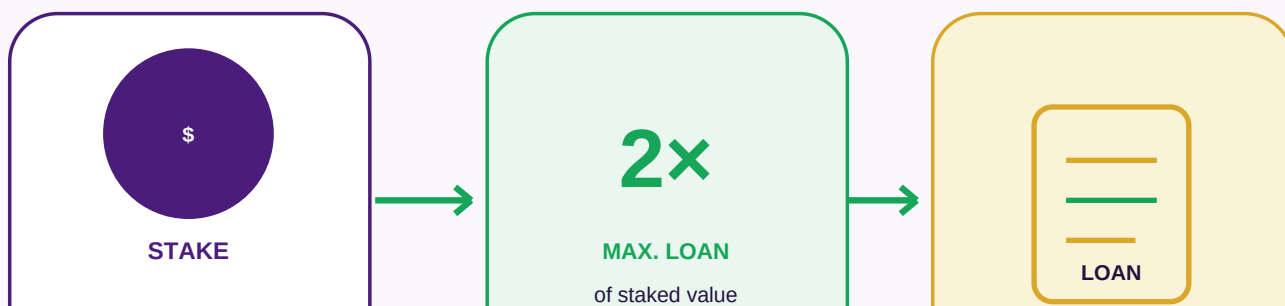

All allocation percentages shown above are the stated token distribution; no additional percentage is introduced.

ACT 04 • STAKING & LENDING

From staking to a lending service.

After listing, ecosystem members are expected to gain access to staking, followed by a lending mechanism backed by staked assets.

STAKE → ACCESS → LOAN

01

ACCESS

Service intended for registered ecosystem members.

02

ELIGIBLE ASSETS

Staking \$LOAN or \$BBC as the basis for the mechanism.

03

CAPACITY

Loans may reach up to 2x staked value, subject to service rules.

04

CURRENCIES

Local currency, USDT, BTC or ETH.

05

TERM

Stated term: 12 months, subject to applicable conditions.

IMPORTANT

**FOR COMPLETE LENDING CONDITIONS: SEE THE
“LOAN DETAILS” DOCUMENT.**

This White Paper presents only the general principle. Eligibility, application procedures, collateral, repayment terms, and other parameters must be reviewed in the dedicated document.

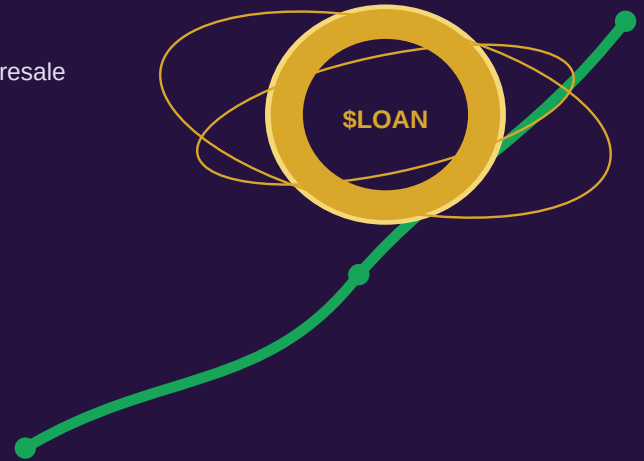

ACT 05 • LISTING, UTILITY & VISION

03.11.2026

LISTING

The next stage begins on November 3, 2026 — the transition from presale toward utility and ecosystem development.

AFTER THE LISTING

01 LISTING

03.11.2026 • Announced price: \$0.01

02 STAKING

Implementation of the planned functionality after listing.

03 LENDING

Planned access to the lending service for eligible members, subject to applicable conditions.

ONE SIMPLE PATH

Presale → Listing → Staking → Lending Services

LoanSwap aims to progressively build an experience in which \$LOAN extends beyond holding and participates in an ecosystem of services.

VISION

TECHNICAL DATA

Name: LoanSwap • Symbol: \$LOAN • Blockchain: BNB Chain • Supply: 5B • Decimals: 18
